Arecont Vision® Welcomes Robert Turner as Regional Sales Manager for Southern England

Los Angeles, CA (December 14, 2015) – [Arecont Vision](#)®, the industry leader in [IP-based megapixel camera technology](#), announces the addition of Robert Turner to the UK sales team. As Regional Sales Manager for Southern England, Turner will be responsible for growing market share of Arecont Vision megapixel solutions through a network of system integrators, distributors and national accounts.

“More than ever, our end users and systems integrators need solid counsel and technology expertise when considering a megapixel camera solution,” said Paul Taggar, Regional Sales Leader, UK & Ireland, Arecont Vision. “Rob brings knowledge of the region and depth of expertise in the technology to meet these needs. It’s a powerful combination that provides tremendous value to Arecont Vision® and to our customers.”

In his new role, Turner will work with end user customers to achieve their security objectives with megapixel IP camera technology, working closely with integrators, distributors, and consultants to identify new opportunities and drive awareness of the Arecont Vision product line.

Turner was most recently National Sales Consultant for Dedicated Micros. He previously held positions with Vicon Industries and ADT Fire and Security where he was

able to expand his industry knowledge to include fire, intruder, access and EAS products.

“Joining Arecont Vision is an amazing opportunity,” said Mr. Turner. “I look forward to building on the momentum with Arecont Vision’s leading megapixel solution.”

ABOUT ARECONT VISION

Arecont Vision® is the leading manufacturer of high-performance megapixel IP cameras. Arecont Vision products are made in the USA and feature low-cost massively parallel image processing architectures MegaVideo® and SurroundVideo® that represent a drastic departure from traditional analog and network camera designs and are now in their 5th generation. All-in-one products such as the MegaDome®, MegaView®, MegaBall®, MicroDome® and D4F/D4S/D4SO series provide installer friendly solutions. True Wide Dynamic Range (WDR) and remote focus/remote zoom enhance camera utility. Compact JPEG and H.264 series cameras address cost sensitive applications.
