

Arecont Vision® Technology Partner Program Adds Emergency Call Box Protection with Talkaphone

Manufacturer of Emergency Call Box Products is Now Program Member

Los Angeles, CA (23 May 2016) – [Arecont Vision®](#), the industry leader in [IP-based megapixel camera technology](#), has announced that Talkaphone, a leading manufacturer of emergency call box products, is now part of the Arecont Vision Technology Partner Program. Talkaphone products integrated with Arecont Vision cameras in a wide variety of verticals and applications including parks and open spaces, schools, corporate campuses, parking lots and structures, and city streets.

“Talkaphone is very proud that our products are Made in the USA, just like the Arecont Vision cameras,” said Bob Shanes, Vice President of Sales for Talkaphone. “Together, this ensures that our installations are of the best possible quality that will stand up to the most challenging applications, ensuring safety regardless of location.”

Talkaphone a leading designer and manufacturer of security and life safety communication products and solutions for customers around the globe. With over 80 years of experience creating communications solutions, Talkaphone designs attractive, robust, and reliable products, focuses on continuous technology advancement, and pledges a total commitment to customer and partner success.

“Talkaphone emergency call boxes serve as a critical alarm system on campuses and businesses across the country,” said Jason Schimpf, Director of Sales Operations & Partner Relations, Arecont Vision. “Adding an Arecont Vision IP megapixel camera, such as our unique SurroundVideo® Omni G2 featuring 4 independently adjustable motorized sensors, provides the system operator comprehensive coverage and excellent detail leading up to, during, and after the emergency button was pushed. This

allows emergency units to respond quickly while providing the operator continuous and complete situational awareness.:

The Arecont Vision Technology Partner Program includes sales, development, and support contacts between the two companies in order to better engage with end user customers and integrators, integrate new features and technology, and quickly resolve customer support issues. Customers are already benefiting from integrated Arecont Vision and Talkaphone installations.

###

ABOUT ARECONT VISION

Arecont Vision is the leading manufacturer of high-performance megapixel IP cameras. Arecont Vision products are made in the USA. MegaVideo® and SurroundVideo® massively parallel image processing architectures are now in their 5th generation and represent a drastic departure from traditional analog and network camera designs. All-in-one products such as the MegaDome®, MegaView®, MegaBall®, and MicroDome® series provide installer friendly solutions.

ABOUT TALKAPHONE

Talkaphone is the industry's leading designer and manufacturer of security and life safety communication products and solutions for customers all over the world. We hear daily that we are hands down the best provider in the industry - the best quality, the best technology, and the best solution for every need and every budget, supported by a total commitment to being the best. We are totally committed to those we work with, whether it's a consultant, an integrator, a distributor, or an end-user. That means we focus on understanding the unique equation that defines value for each and delivering it. It means we do whatever it takes to support project success, even when there are challenges, even well after the sale. That's true commitment. Talkaphone. The leaders in security and life safety communications.
